

CAT LEVAN DOUBLE LIFE

RELEASED MAY 29, 2020

Cat Levan's debut album brings a world flavor with Producer Steve Oliver's musical expertise. A fresh and unique sound, with a West Coast feel, Cat brings her perspective on the secret life of musicians with her title track, "Double Life". She sings about love, loss and getting yourself unstuck in "Moving On", and the heart-aching beauty of missing your special someone in "Coming Home". "What's Been Going Down" is a catchy tune that will have you singing along with Cat as she shares the confusion and frustration we feel when we make all the right moves but don't see anything change. Filled with tribal rhythms and intimate voicing, this is an album you will want to hear again and again as it reveals itself slowly.

Cat Levan comes from a musical family. There were always new instruments in their home, whether it was a trumpet, violin, piano or flute. Many nights, people would drop by and an impromptu jam session would begin. Other nights, she was lulled to sleep by her mother's soothing piano concertos or a new Herb Alpert record. Music became the most powerful form of communication and she soaked up many styles and genres in her thirst for a deeper understanding of the world. At the age of 19 she performed her first solo gig and was scouted by a record company. Her sports career took priority for the next few years, but music brought her back to a recording and co-writing opportunity with famed Producer and multi-instrumentalist Steve Oliver.
