

# CAT LEVAN THE JOY OF CHRISTMAS

**RELEASED NOVEMBER 6, 2020**

Singer-songwriter Cat Levan shares her intimate memories of Christmas past on this new EP "The Joy of Christmas". On the original title track, she sings about the joy of lovingly wrapping gifts, sharing a holiday meal with friends and family and after dinner games. The warmth and joy in her voice shines through and makes you want to curl up on the couch for a little snuggle.

Cat's stylized version of "Silent Night" breathes a breath of fresh air into a true holiday classic. The updated Gospel rhythm makes listening to the classic tune a joy. A gentle blend of reverence and energy makes this a perfect tune for your family holiday dinner.

When you listen to "Watching the Snow Fall" you can almost hear the snow falling softly as Cat sings this soulful tune written by #1 Billboard Hitmaker, Steve Oliver. Grab your special someone and curl up by the fire with this lovely new Christmas classic. Cat's signature sultry tone lends itself well to this laid-back romantic melody.

The Joy of Christmas is the perfect addition to your next holiday playlist. Fresh, laid back and sultry, a perfect blend that you will find yourself listening to again and again.

Cat Levan is a true fan of Christmas. "It's always been my favourite time of year," the glowing artist says, "because it's the one time of year when people focus on spreading love and good feeling even to strangers. I wish it happened all through the year but it's even more magical in Wintertime."
